

2007 SLSA DELTA JET 582/912/912S

Nowhere on the planet can you find a machine the equal of the Apollo Delta Jet ASIII. Combining unmatched performance, design and flight characteristics, the Apollo Delta Jet redefines what a weight shift control aircraft can be. Feather-light handling characteristics, contoured seating, and adjustable front forks make the Delta Jet an absolute joy to fly. Full fared fuselage, lifting landing gear struts and low drag design allows the Delta Jet to hit 100 mph+ speeds, but still land like a kitten.

The Delta Jet was one of the first Light Sport Aircraft certified in the United States. To complete the perfect trike, the Delta Jet is backed by one of the best warranties in the industry.
